

SUMMER 2015/16

YES WE DO TYRES YES WE DO WHEEL ALIGNMENTS

If your vehicle needs tyres, give us a ring first. Our prices won't be beaten. We have four options, from premium down to a cheaper after-market brand.

It's important to get a wheel alignment done after you have new tyres fitted. A correct wheel alignment will maximise the life of your tyres, save you fuel and enhance your cornering and handling.

WE ARE HERE TO PROTECT YOU AND YOUR VEHICLE

We service and repair all makes of cars and also maintain fleet vehicles. We ensure that your vehicle will be reliable and conveniently serviced to keep you on the road.

The silly season is upon us again! It's that time of year to get your vehicle checked over before the summer road trip.

Over the page we have a special service deal just for you in the months of November and December.

Thanks for your support over 2015 – it's been a fantastic year – #allblackeverything!

Have a safe Christmas.

Phil
